- For NUC11 H-Series !
- NUC11DBB !
- Premium Aluminium !
- GPU Support !

Premium fully aluminium chassis designed for Intel's modular computing segment of NUC 11 and 9 Compute Elements (H-series). With superior room for the latest 2.9-slot GPU's up to 313mm.

Build and unleash the most ferocious monster power for gaming!

- Premium fully aluminium chassis for modular computing with massive room for GPU
- Perfect for Hi-End Pro Applications
- Superb Modular Design
- IExcellent Heat Dissipation Technology
